

TECHNICAL DATA**WT50**

| | |
|--------------------------------|---|
| Article: | WT50 |
| Description: | Waterproof cloth tape |
| Carrier: | Woven cotton / polyester cloth |
| Type of adhesive: | Synthetic rubber |
| Thickness: | 170 μ |
| Adhesive strength : | 20N/25mm |
| Tensile strength : | 75N/25mm |
| Service Temperature: | -10~+60°C |
| Short term Temperature: | +75°C |
| Properties: | <ul style="list-style-type: none">■ Strong initial tack■ Good adhesive power■ Conformable & excellent adhesion on PE and PP |

- Shelf life:** 1 year if stored properly
- Recommendations:** The tape should be applied with sufficient pressure to ensure an optimum bonding. Surfaces should be clean, dry and free of dust, grease, oil or other contaminants
- Storage:** Store under normal conditions of 10° to 30°C and 65% R.H. in the original carton. The product should be protected against direct sunlight and extremes in temperature and humidity and stored upright in its original packaging. Once removed from its packaging, it should be protected against dust and impurities

Unless stated otherwise all values given are average. The data above are typical results and subject to change without notice. The tape should be thoroughly tested on the substrates in the particular application they are intended for. The user shall determine the suitability of the product for its intended use and the user assumes all risks and liability whatsoever in connection therewith.
