## Filter for FGA type IG/FGA

G3 filtermedia on steel wire for **FGA** filter grille

### Brand

- Cairox

### Composition

- Synthetic filtermedia with filterclass G3
- Gravimetric capacity: 85%
- Classification G3 ( EN 779 )
- Initial pressure loss: 20Pa
- Maximum end pressure loss: 200Pa
- Max temperature: 110°C
- Not regenerable

Filter Type	Correction factor	FΔP
G3		x 3

### Symbols and specifications

- Correction factor for the determination of the static pressure drop if we place a filter in combination with the Filter grille **FGA**.
- FΔP = correction factor for determining the pressure loss of the filter grille in combination with a Filter(G3).
