

Aluminium tapes for insulation. type ALUTAPE 40S PREMIUM

Self-adhesive aluminum tape.

A soft aluminum foil 40 µm coated on one side with an acrylic cold weather adhesive.
The tape is backed with a paper liner.

Brand

- SUFIX

Application

- Suitable for the assembly of insulating materials with regular or irregular surfaces with an aluminum layer for insured and durable adhesion
- Excellent resistance to low temperatures, aging and UV rays
- For maximum effect the surface must be clean and free of dust, moisture and other foreign contamination
- Storage in a properly ventilated room at a temperature between 16 and 27°C
- The tape should be applied with sufficient pressure to ensure an optimum bonding
