

Gloves / cotton type PPE-TEX-TU

Application

The PPE-TEX-TU are fine gloves made of 100% cotton and are ideal for fine operations that require dexterity in a dry environment. These gloves protect against fingerprints and other possible contamination.

- These gloves are made of cotton. They provide natural comfort, absorb perspiration and do not cause skin irritations
- The elastic wrist section provides comfort and flexibility.
- The composition means that each glove can be worn on both the left and the right hand
- The gloves can be used as undergloves (cold/hot)

This model complies with **Regulation (EU) 2016/425** about the personal protective measures (PPE) according to category I.

Material

Fibers : 100% cotton interlock
Colour : Natural ecru

Specifications

Two identical shapes were joined horizontally as palm and back and then provided with an elastic wrist section.
This makes the gloves usable for both hands.
