

**MG2-A(XL)**

- Fire resistant collars for sanitary pipes in PVC, PP and PE
- Rf2h
- EN1366-3
- Surface mounted

## Fire resistant collars type MG2-A(XL)

Fire resistant surface mounted collars **MG2-A** can be installed around ventilation/sanitary plastic ducts in PVC, PE and PP passing through a construction element, in order to prevent the propagation of fire. 100% free area is guaranteed. Always to be placed at both sides of a wall in exception of passing through floors.

### Application

- Fire compartmentation for sanitary ducts
- Fire resistant up to 2 hours when placed at both sides of a wall

### Material

- Galvanized steel body with swelling fire resistant material

### Mounting

- Installation method: build-on, U/C (uncapped/capped), C/C (capped/capped)
- To be mounted at both sides of a ducts passing through fire resistant construction elements

### Certification

- Tested according European standard EN 1366-3
- Classification according European standard EN 13501-2
- For Ø40-110: Classification EI120 (i<->o) on concrete wall or floor of min 150 mm without filling around tube
- For Ø160: Classification EI90 (i<->o) on concrete wall or floor of min 150 mm with mortar filling around tube
- For Ø75-110: Classification EI90 (i<->o) on metal stud gypsum plasterboard 60'

### Text for tender

- Fire resistant collar **MG2-A screwed** on to the wall at both sides of plastic ducts passing through a construction element in order to prevent propagation of fire. Fire resistance up to 2 hours
- CAIROX type **MG2-A**

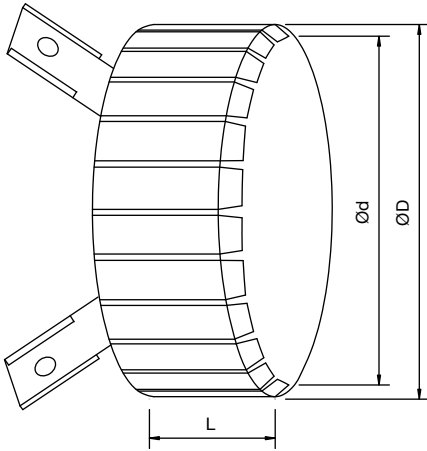

### Order example

- **MG2 -A, 110**

Explanation

**MG2-A** = Type of fire resistant collar

**110** = Duct diameter

	Dimensions		
	L [mm]	Ød [mm]	ØD [mm]
MG2-A 40	40	40	56
MG2-A 50	40	50	68
MG2-A 56	40	56	75
MG2-A 63	40	63	80
MG2-A 75	40	75	92.5
MG2-A 80	40	80	110
MG2-A 90	40	90	125
MG2-A 100	40	100	132
MG2-A 110	40	110	139.5
MG2-A 125	40	125	172
MG2-A 160	40	160	205.5
MG2-A XL 200	100	200	271
MG2-A XL 250	100	250	321
MG2-A XL 315	150	315	396
MG2-A XL 355	150	355	436
MG2-A XL 400	150	400	481
