

- Galvanised steel frame with filtermedia
- Filterclass G3 - Coarse 60% ISO 16890
- 1" (25 mm)

Disposable filters type IG (G3)

Galvanized frames with G3 - Coarse 60% ISO 16890 filtermedia

Application

- For air filtration in ventilation and airconditioning systems

Material

- Galvanized steel
- Synthetic polypropylene filtermedia

Colour

- Galvanized steel with white filtermedia

Composition

- Galvanized steel frame and mesh
- Synthetic polypropylene filtermedia with filterclass G3
- ISO 16890 Coarse 60%
- Thickness: +/- 25 mm (1")
- Gravimetric capacity: 82%
- Classification G3
- Initial pressure loss at 1,5m/s: 22Pa
- Maximum end pressure loss: 250Pa
- Max temperature: 100°C
- Not regenerable

Mounting

- To be inserted in ventilation systems, airconditioning units, ...

Text for tender

- The air filters will be of the type with galvanized steel frame and mesh, containing a G3 - Coarse 60% ISO 16890 filtermedia.
- ATC Type **IG**

Order example

- IG 20 X 16**

Explanation

IG = Type filter

20 = Length filter (inches)

16 = Height filter (inches)
