## Filter plenum, filter included type MVX-PF-F7

Filter plenum for **F7** - ePM1 55% ISO 16890 filter

### Composition

- The **MVX PF F7** module is fitted with a high-efficiency **F7** - ePM1 55% ISO 16890 filter.
- Filter width according to serial number:  
**Serial number up to 192254: 98mm wide flat filter**  
**Serial number up to 192255: 48mm wide flat filter**
- Always check filter pressure drop!
- Outer wall: pre-painted sheet steel (RAL 9007) with protective film
- Slide rails with lip seals
- Supplied separately, unassembled; factory assembly on request
- The MVX-PF-F7 filter box can also be fitted with an optional Class F9 replacement filter: see MVX-F9 filter.

Attention: By default, this module is delivered with the F7 filter. This filter can be replaced by a class F9 fine filter after commissioning.

	Dimensions
