

Distribution plates type DDCP

Distribution plate for **KTL CP**

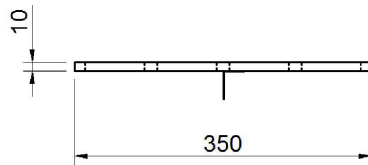

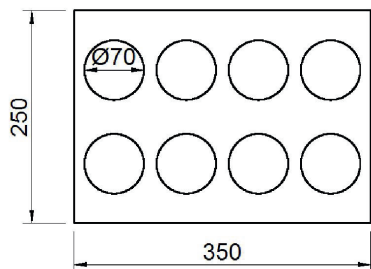

Application

- Distribution plate with multiple connections for **FLEXCON 70** or **FLEXCON 90**

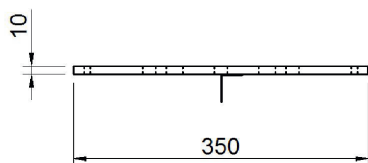

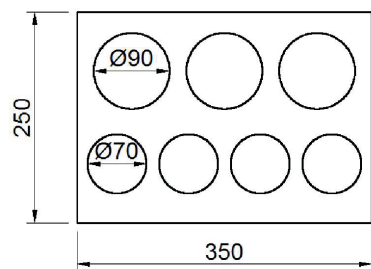

Composition

- The distribution plate is made out of KTL coated steel (5µm); thanks to this KTL coating, the plate is resistant to the corrosive elements of the cement screed
- The KTL coating is also dust and moisture repellent, which makes it very appropriate for ventilation applications
