

Rectangular bends type KTL BDH90

Rectangular horizontal duct of 90°

Brand

- Ventichape

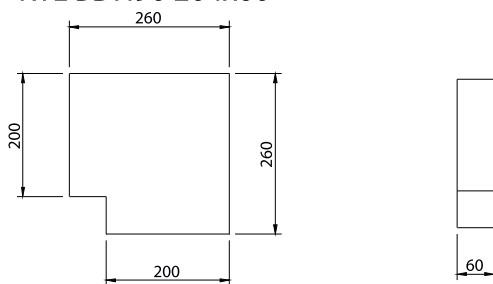

Application

- This horizontal bend of 90° is equipped with an air conductor to reduce the air resistance and is designed for the connection of other fittings or **KTL-SD** ducts; two connection pieces **MDF** always need to be provided

Composition

- This rectangular horizontal bend of 90° is made of KTL coated steel (5µm); thanks to this KTL coating, the bend is resistant to the corrosive elements of the cement screed (compression strength 80 kg/cm²)
- The KTL coating is also dust and moisture repellent, which makes it very appropriate for ventilation applications
