

- Insulated ducts
- ISDR - Foam + PE shell
- Auxillary components

Flexible connection for ISDR ducts type ISDR M

Flexible connection for mounting of **ISDR** ducts. This patented connection system guarantees an excellent air-tightness of the ducts and a solid and safe mounting without any problems. Made of EPDM rubber.

Specifications

- **ISDR M** = Connection piece for ducts
- **ISDR MS** = Symmetrical connection piece
- **ISDR MAS** = Asymmetrical connection pipe

Order example

ISDR MS 200/180

Explanation:

ISDR MS = flexible symmetrical connection

200 = connection diameter for ISDR

180 = connection diameter for ducts or air handling units

ISDR MAS 160/125

ISDR MS 250/200
ISDR MS 200/180
ISDR MS 200/150
ISDR MS 160/125

ISDR M 250/250
ISDR M 200/200
ISDR M 160/160
