

## Waterless odour traps type SIP32

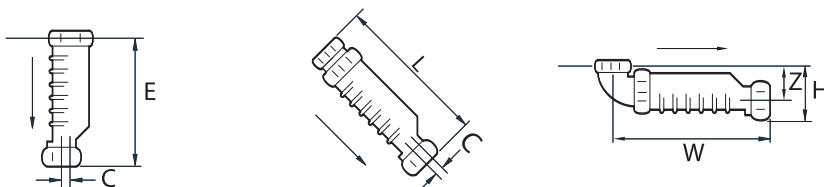

Odour trap without water seal

### Brand

Wavin

### Application

- SIP 32 can be installed vertically, horizontally or at any angle of your choice
- A specifically designed self-closing membrane ensures an air-tight separation between the space and the discharge system
- No odour by self-closing membrane, a lock without water. It is the water in a siphon that can cause problems, it can be pulled empty. This is not possible with the SIP32.
- Connection 32 mm
