

**I.10**

Heat recovery units

## Silvertop

- Non residential
- Counter flow
- R-COVERY by ZEHNDER CALADAIR
- $Q_v \leq 5500 \text{ m}^3/\text{h}$
- Vertical
- Heat recovery unit with efficiency  $\geq 90\%$

## Heat recovery unit with post heating coil and connections on top type Silvertop

Heat recovery unit with high efficiency up to 90%. The range includes 6 sizes for flow rates from 100 to 5500 m³/h. Each Silvertop model comes with its own control as standard.

The Silvertop Premium is a self-regulating unit either equipped with a water heating coil or with an electric heating coil for temperatures down to -10°C and an extensive control module.

The unit is designed for **indoor installation** with **connections on top**.

### Brand

- R-COVERY by ZEHNDER CALADAIR

### Application

- Autoregulating ventilation with high efficiency heat recovery in non residential and industrial applications
- Air filtration, temperature control
- Compact monoblock ventilation unit, with plug & play and energy-saving control system (EN 15232)

### Composition

- Double-walled panels 10/10th
- Insulation with mineral wool M0
  - with 25 mm high density glass wool insulation, fire class (A2-s1) for sizes 06 and 08
  - with 50 mm high density glass wool insulation, fire class A1 (M0) for all larger construction sizes
- Outer layer: prelacquered steel plate in titanium grey (RAL7035 - Aluminum grey).
- Inner layer: galvanized steel plate
- Panel for access to the internal elements equipped with safety lock
- Round connections with lip seal for all models, except for size 52 which has rectangular connections
- Equipped with connections on top (only for indoor installation)
- Hydraulic connections (version Premium BC) on top!
- Monoblock version
- Only available with the operating side on the right, considering the air flow (see configuration!)
- Mounting feet integrated in the frame for easy transport and fixing in the ground

- Easy access to all components via 2 hinged doors
- Condensation tray provided with drain at the bottom with ½ "connection
- Internal 100% Bypass, motorized and self-regulating
- Internal control with external display IP65
- Integrated FREE-COOLING and NIGHT COOLING function
- Built-in temperature sensors (4)
- Built-in timer for dual flow rate function
- Built-in weekly timer and holiday timer
- Safety switch
- Differential pressure switch on inlet filter F7
- Differential pressure switch on each fan
- Modbus or Bacnet as standard

### Fan

- Fan with free-running wheel
- Direct drive DC motor with high efficiency electronic modulation (EC), thermal protection and integrated speed control
- The EC technology guarantees a limited energy consumption by controlling and checking the operating point (regulation between 10 and 100%)
- Low noise level for better acoustic comfort

### Exchanger

- Static counter-flow heat exchanger made of seawater-resistant aluminum, brand Klingenburg (EUROVENT approved)
- Efficiency 90% (EN308)
- Automatic defrosting by means of bypass

### Filter

- The filters are mounted directly in front of the components for optimal protection
- The filters are mounted on slides with lip sealing for efficient airtightness
- The basic configuration of the Silvertop is equipped with an F7 filter- ISO 16890 ePM1 - 55% (supply) and an M5 filter- ISO ePM1 50% (extraction)
- F7 high-efficiency filter: 10x larger filter surface than a gravimetric filter and 2.5x longer life
- Additional fresh air filter available as an option
- A double filtration can be provided on the fresh air. However, the pressure drop (see spare filters) must also be taken into account in the technical selection of your device!

### Versions

- **SILVERTOP Premium xxxx BC:** ventilation unit equipped with a built-in water heating coil for post heating  
Hydraulic connections on the top of the unit
- **SILVERTOP Premium xxxx BE:** ventilation unit equipped with a built-in electrical heating coil for post heating

**See downloads for technical info batteries**

### Options

- **DIVA®EC\*:** Proportional modulating flow (between a set min. and max. flow) of each fan based on a built-in CO<sub>2</sub> measurement. The amount of CO<sub>2</sub> (number of ppm) is adjustable in the control
- **LOBBY®EC\*:** Constant pressure ventilation for each fan
- **MAC2®EC\*:** Two adjustable constant air flows for each fan (except for sizes 05 and 08)
- **QUATTRO®EC\*:** Proportional ventilation between two constant air flows (high and low speed) for each fan (except for sizes 05 and 08). With built-in CO<sub>2</sub> sensor in the exhaust side of the unit

\* this regulation will be built-in in the unit. It is not possible to add this regulation afterwards

### Certification

- The unit is scheduled to be tested this year in accordance with the NBN EN 308 standard.
- Efficiency of the heat exchanger of more than 90% (EN308), in accordance with RT2012 and the directive ErP 2009/125/EC
- Standard construction with double skinned panels and insulation of 25 mm (types 06 and 08) and 50 mm for all bigger types
- In conformity with EUROVENT classifications according to EN1886 and EN13053
- Resistance of the casing: D2
- Air tightness: L1
- Conductivity: T3
- Thermal bridge factor: TB3
- Filter leakage class: F9

- Outer panel made of prelacquered steel 10/10
- Finish RAL9007 - Titanium grey
- Inner panel made of galvanized steel 10/10

### Accessories

- replacement filter **FS-SILVERTOP**
- Airtight control valve **AKH**
- Motorizable opposite blade damper, type **MVX-RM 52** for type 52
- Flexible connection for type **MTS M52**
- Round flexible connections **MTV**
- **Controllers for Silvertop up to serial number 225190:**
  - **E3-DSP** controller mounted on the unit as standard
  - Remote controller available as an option
    - **E3-DSP** remote display (up to 100 metres, to be provided by the installer) with 3-metre **EDSP-K3** or 10-metre **EDSP-K10** Belden cable
    - **ED Touch** digital controller for units type GTDHR/V, Hexamotion(-S), Freetime(-S), Silvertop, Neotime (First and Premium)
      - Cable 4-wire 24 Vdc (Corrigo C+/GO) of 10 rmt included
- **Controllers for Silvertop from serial number 225191:**
  - **Easy 5.0** controller mounted on the unit as standard
    - Master touch screen controller
  - **EDT2** remote controller available as an option
    - Touch screen controller for end user
