## Lifting hooks for EVEREST 290 type MG-Kp (PAE GPE)

As an option on the EVEREST heat pump. The lifting eyes must first be mounted laterally on the base of the EVEREST unit. By means of these lifting eyes, the EVEREST unit can then be lifted by a crane. Please note: The spacer and the lifting straps are not part of this option and must be provided by the persons who take care of the crane work.

**Brand**

- Emicon

**Application**

- Can only be ordered as an option when purchasing EVEREST 290 units

**Characteristics**

- Delivered in a separate box
