

Plenum box for air intake/outlet for AIR fan coils type AIR ASP-AIP

Insulated plenum box for air supply and non insulated plenum box for air return in galvanized steel with free space for filter for AIR units.

Brand

Ventilclima

Application

Auxiliary units

Composition

- Galvanized steel
- Round spigots in galvanized steel, diameter and number according to AIR unit dimensions
- AIP = Non insulated plenum box with free space for filter as a standard
- ASP = Internally insulated plenum box for air supply

Versions

Available in 10 sizes. Number of spigots and diameters according to the size of the plenum box.

Order example

AIR-10-ASP

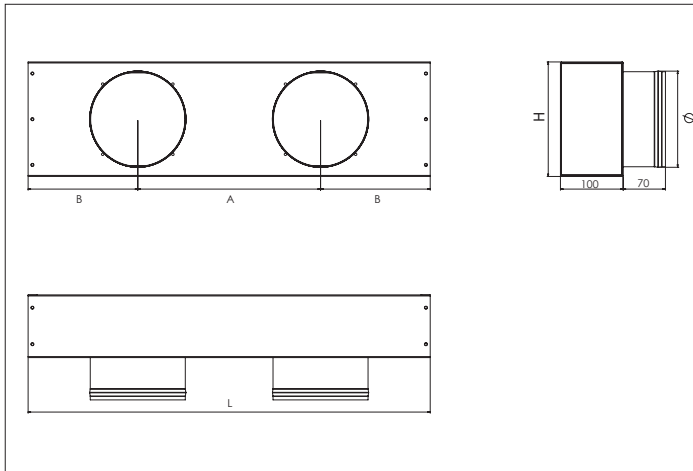

Explanation

VCE = Type of fan coil

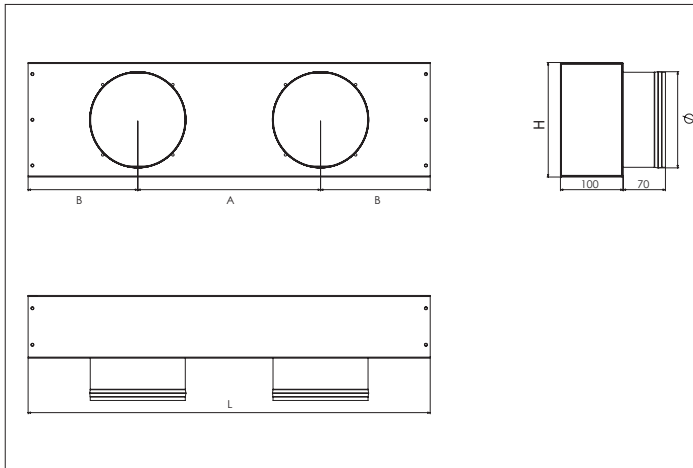

10 = Size of fan coil

ASP = Plenum box for air supply

AIP = Plenum box for air return
