Fan Coils ECM
Ventilclima
LIGHT

Cassette units 900 x 900 mm EC- motors 0-10V type LIGHT-ECM-900x900

EUROVENT certified fan coil; cassette unit for ceiling mounting 900 x 900 mm, for cooling and/or heating of water

Brand

- Ventilclima

Application

- For cooling and/or heating by water of hotels, shops, offices,...

Composition

- Galvanised steel, with thermo-acoustic isolation
- Hooks in corners for easy mounting in ceiling
- Condensate pump
- One phase electrical motor with overload cutout, 3 speeds
- Air filter is attached on the inside of the louvre
- The exchangers are made of copper tubes with female fittings
- Type ECM has an EC motor

Options

Louvre/valves/controller have to be ordered separately

- 2 or 4 pipes
- With infrared controller or wall mounted controller
- Premounted internal valves
- ON/OFF or modulating motor 230 or 24V
- Electrical resistance
- EC motor standard
- Input of fresh air

Accessories

- Decoration panel, type **LIGHT-PANEL-900x900**: to be ordered separately!
 - In metal (MET) or plastic (ABS)
 - Fixed (F) louvers
 - Thermostat (NC) or infrared controller (RC)
- Thermostat, type **LIGHT-ECM-NC type I-30 / I-70 / i-Basic 3 / i-Digit 0-1-2-3** (to be ordered separately)
- Infrared controller, type **LIGHT-ECM-RC type LIGHT-IR** (to be ordered separately)

Order example

LIGHT-ECM-93-RC/NC

Explanation

LIGHT-ECM = Cassette with EC motor

93 = Size

RC = With infrared controller

NC = Wall thermostat
