

Anti-vibration mounting blocks type MPRR

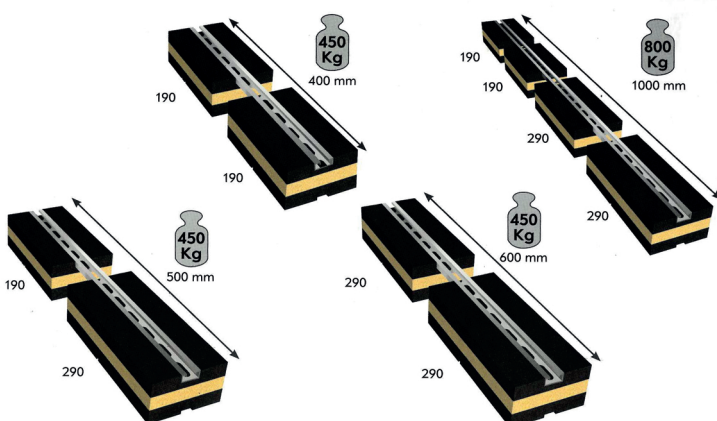

Modular anti-vibration rubber mounting blocks, adaptable to different applications on flat roof and ground. Studied with a simple design for a great technical utility, given by two layers of rigid recycled rubber and an amortizing intermediary layer. It guarantees a good compression and resistance with heavy machines.

Application

- Condensor units
- Supporting small pipe work systems

Specifications

- MPRR 190:
 - 1 metal insert of M8 to fix profile and/or threaded bar
 - Max. load: 220 kg
- MPRR 290:
 - 2 metal inserts of M8 to fix profile and/or threaded bars
 - Max. load 220 kg

	Dimensions			
	L [mm]	W [mm]	H [mm]	Max [Kg]
MPRR 190	190	140	90	220
MPRR 290	290	140	90	220
