

Accessories rigid drain pipes type RDP accessoires

Range of all necessary accessories such as bends and T-pieces for the fixed condensate drain pipes. Available in diameters 20mm, 25mm and 32mm.

Specifications

- Form pieces with rubber inlay for watertight connection
- Pre-assembled O-ring so that the couplings are ready to use
- No adhesive required, so no drying and waiting time until the coupling is firmly bonded
- No adhesive stains that need to be removed if painting after installation
- Available in white as standard (can be painted over if desired)

Material

- PVC
