trays

Biological cleaning of condensate trays and drain hoses type DRAIN CLEAN BIO 400ML

Drain Clean Bio is a ready-to-use biological cleaning gel with friendly bacteria for cleaning drain pans and drain pipes and removing pollution, dust and particulate matter.

Spray Drain Clean Bio into the dripping pan and the drain pipe. Use the spray extension to clean the drain pipe. The bacteria will automatically carry out their cleaning action.

Application

- Suitable for cleaning condensate trays and related parts by means of friendly bacteria
- Suitable for preventive cleaning of evaporators and condensers

Composition

- Composition in accordance with EC regulation: <5% bioethanol, other: friendly bacteria
- PH neutral, safe for humans, plants, animals and materials
- The spray cans do not contain propellants but compressed air
