

Set charging hoses for R410A and R32 type HK5N

Set of 3 premium quality hoses for refrigerant R410A and R32 with shut-off valve. Connection diameter 1/4" FM and 5/16" FM. Direct connection without couplings between manifold and outdoor unit. These hoses are equipped with a Schrader key.

Application

- For airco and cooling systems

Composition

- Synthetic rubber hoses in 3 colors
- 2 hoses with Schrader key and sealing capability (blue + red)
- 1 hose without Schrader key (yellow)
- White teflon sealing + additional green rubber sealing

Specifications

- Industry standards: UL1963 and SAE J2196
- Working pressure: 800 Psi / 55 bar
- Burst pressure: 4000 Psi / 275 bar
- Temperature: -30°C to 95°C
- Connection diameter: 1/4" - 5/16"

Colour

- Set of 3 cooling hoses with coloured valves (red, blue and yellow)

Dimensions

- Length: 900 mm
