

Set charging hoses for R410A type HJ3E

Set of 3 quality hoses for refrigerant R410A with shut-off valve.
Connection size 2x 5/16". ADR78 reduction required for connection to 1/4" couplings.

Application

- For use in airco and refrigeration applications.

Composition

- Black synthetic rubber with coloured outer layer
- Ball valve : ½" 45° ball valve on 1 end

Specifications

- Industry standards: UL1963 and SAE J2196
- Working pressure: 800 Psi / 55 bar
- Burst pressure: 4000 Psi / 275 bar
- Temperature: -30°C to 95°C
- Connection diameter 5/16"

Colour

- 3-pack (yellow, red, blue)

Dimensions

- Length : 900 mm

Accessories

- Rubber sealings (10 pcs) for hose connection, type **HXG2**
- **ADR 78** FF 1/4 - M 5/16
