

Refrigerant charging/recovery scale type CC220

High capacity 220lb/100kg Compute-A-Charge® refrigerant charging/recovery scale, calibrated to NIST standards.

Application

- To measure the weight of the reconvert or adeted refrigerant into freezing or airco installation.

Composition

- Large, highly visible 1 1/2" x 2"/37mm x 48mm high resolution LCD display.
- The ergonomic hand held remote incorporates 6ft coil cord, a hangin hook and is backed with a magnet for attaching to metal surfaces.

Specifications

- Full mechanical and visual overload protection. Operates 60 continuous hours on two 9V alkaline batteries.
- Includes automatic off-feature.
- Readout : Imperial /Metric.
- Working temp.: / -10°C to 50°C.
- Capacity: 100Kg
- Accuracy : 015% of Reading ±10g
- Platform size: 223 x 223mm Removable
- Weight: 2.55 kg
- Programmable: No

Dimensions

- Carrying case 275 x 360 x 60 mm.
