

**SPCA Split
Cover Alu**

Aluminium casings for outdoor units type SPCA Split Cover Alu

Application

This aluminium casing provides an elegant and high-quality finish for the outdoor unit, so that the unit is hidden from view. This stylish air conditioning casing is a fashionable addition to your home and does not affect the operation of the air conditioning.

Available in 3 heights: 700, 800 en 1100 mm.

Specifications

- This aesthetic casing protects the outdoor unit and hides the unit from view
- Simple and quick installation because the mounting holes and mounting kit are already provided
- The sides are attached with hinges, so you only need to attach the top plate and the two reinforcement corners at the bottom
- Thanks to its mounting holes, the casing can be used for hanging mounting against the wall as well as for standing mounting
- The rear of the casing is completely open. Optionally, a back panel is available
- The slats are flat and within the frame
- The casing can be turned at 180°. The slats can therefore be placed as desired (up or down)
- Please consider the installation regulations of the outdoor unit when selecting
- **The mounting kit SPCA-MK is included in the delivery.**

materiaal

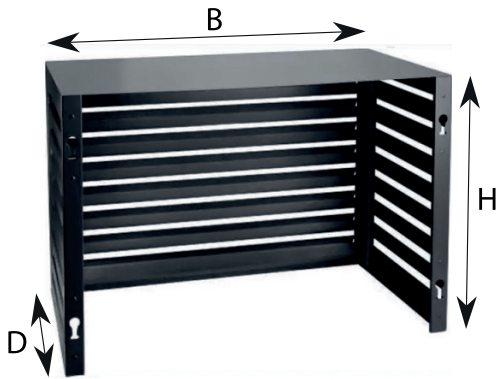

- Powder-coated aluminium

Color

- Black (RAL 9004) and white (RAL 9003)
- Available on request: anthracite (RAL 7037)

Accessoires

- Alu back cover (black), type **SPCA-B-BC**
- Alu bottom panel (black), type **SPCA-B-BP**
- Alu mounting kit (black), type **SPCA-B-MK**
