

## Built-in Electronic temperature and humidity probe type RGDD

Built-in electronic temperature and humidity sensor for the Hidros dehumidifiers **SBA**, **SDA** or **SHA**. If you wish to install the **HOWA** accessory (built-in hot water battery) and the **KIVM** accessory (built-in 3-way valve) on a Hidros dehumidifier, this **RGDD** is a mandatory option.

### Brand

- Hidros

### Application

- Built-in from the factory if, in addition to the humidity, you also want to read the temperature on the control panel of a Hidros dehumidifier.
- Mandatory option when also choosing the options **HOWA** (built-in hot water coil) with **KIVM** (built-in 3-way valve) or the option **HOEL** (built-in electric heating coil)
