Remote control panel type PCRL.10

Remote control panel for Hidros dehumidifiers SBA-(A),SBA-(P), SDA or SHA. The Hidros dehumidifiers are equipped with a built-in controller as standard. This control panel allows you to do the same settings and readout, but from a distance. The PCRL.10 is often used when the dehumidifier is built into a technical room or false ceiling and you want to operate the device from the swimming pool room.
