Dehumidifiers SBA-P

Indoor pool area

Swimming pool dehumidifiers type SBA-P

Dehumidifier for wallmounting for indoor pools mounted through the wall. The **SBA-P** increases comfort and prevents mould growth and moisture damage to furniture or the building structure. The units have an epoxy coating to resist chlorine vapours. Optionally, this dehumidifier can be equipped with a heating coil for a more pleasant indoor climate. The dehumidifier does not have a built-in humidity probe. Choose from the accessories listed below for a built-in humidity probe RGDD or a remote humidistat HYGR for mounting in the pool area.

Brand

Emicon

Application

- Dehumidifying indoor swimming pools
- To be mounted in the adjacent technical room
- On request also available as an industrial dehumidifier (HBA-P-version) operating up to 5°C instead of up to 20°C.

Capacity

- 50 to 200 l/24h
- 500 to 1650 m³/h

Accessoires

- **HYGR** Remote mechanical hygrostat for wall mounting. It comes with a control knob and has a working range from 30% to 100% with an accuracy of 3%.
- **HOEL** Electric post-heating battery (Also take the RGDD.05 in this case) **HOWA** Hot water battery (on central heating water from the boiler or heat pump) to heat the air in the room after drying (also take the KIVM and RGDD.05 in this case)
- **KIVM** modulating 3-way valve In combination with the HOWA hot water battery. The 3-way valve is controlled directly from the regulator of the SBA unit. **INSE** - Serial Interface Card RS485
- This interface card allows the regulator to communicate with other devices via the Modbus protocol.

Dehumidifiers

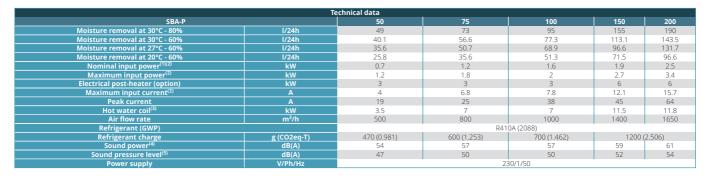

LS00 - Low noise version

- PCRL Remote control
- This panel can be mounted up to 50 m (maximum) from the device and displays all control functions. It is connected using a double cable with a section of 0.75 mm².
- RGDD Humidity and temperature sensor Built-in electronic temperature and humidity sensor.
- KGBH Grille set Two air grilles with a double row of adjustable brushed aluminium fins. Suitable for wall mounting with a mounting frame.
- PMBH Exhaust and return plenum 90° To divert the exhaust/return air from the technical room to the pool and vice versa. The bends are coated with polyurethane powder.

Order example

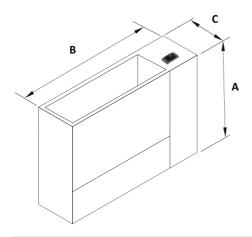

The "SBA (P) 50 1PH RGDD" and "SBA (A) 75 1 PH RGDD" are stock product central warehouse unless sold and have the following options fitted as standard:

- **KGBH** Grille set Air grilles with a double row of adjustable brushed aluminium fins **PMBH** Exhaust and return plenum 90°
- RGDD Humidity and temperature sensor Built-in

Performances are calculated with low fan speed and are referred to the following conditions:

- (1) Temperature 30°C, humidity 80%
- (2) Without electrric heater
- (3) Room temperature 30°C, water temperature 80/70°C, compressor OFF
 (4) Sound power level calculated according to ISO 9614
- (5) Sound pressure level measured at 1 meter from the unit in free field conditions according to ISO 9614
