

Electronic room thermostats type EBERLE 525.55

Electronic thermostat with modulating output and possibility to connect a distance sensor

Application

- Modulating servomotors
- 2-way and 3-way modulating water valves

Specifications

- Temperature range : 5 to 30°C
- Supply voltage : 24 V AC
- Modulating output cooling 0 - 10V (1,5K)
- Modulating output heating 0 - 10V (1,5K)
- Adjustable neutral zone : 0,5 to 7,5°C

Mounting

- Wall

Accessoires

- Duct sensor, type **EBERLE 193.720**
- Wall sensor, type **EBERLE 193.572**
- Transformator, type **TRAFO 15/D**

Technical data

- IP 30

Dimensions

- (W x H x D) mm : 127,5 x 75 x 28,6
