

## Electronic room thermostats type EBERLE 525.56

Electronic thermostat with modulating outputs and possibility to connect a distance sensor

### Application

- Modulating servomotors
- Modulating 2-way or 3-way water valves

### Specifications

- Temperature range: 5 to 30°C
- Supply voltage: 24 V AC
- Modulating cooling output 0 - 10 V (1,5K)
- Modulating heating output 0 - 10 V (1,5K)
- Adjustable neutral zone : 0,5 to 7,5°C
- On/off switch
- 3-speed switch

### Mounting

- Wall

### Accessoires

- Duct sensor, type **EBERLE 193.720**
- Wall sensor, type **EBERLE 193.572**
- Transformer, type **TRAFO 15/D**

### Technical data

- IP 30

### Dimensions

- (W x H x D) mm : 127,5 x 75 x 28,6
