

1	24 V AC/DC
2	24 V AC/DC system neutral
3	Signal neutral
4	Output 0...10 V DC
5	Output 4...20 mA
6	Not in use
7	Not in use
8	Not in use
9	Not in use

## Differential pressure transmitters with display type DMD

Differential pressure transmitter with display and selectable measuring range

### Brand

- Regin

### Application

- Measuring overpressure
- Measuring underpressure
- Measuring differential pressure

### Specifications

- Adjustable range: 0-100 Pa / 0 - 300 Pa / 0 - 500 Pa / 0 - 1000 Pa
- Supply voltage: 24 V AC
- Output signal: 0 - 10 V DC and 4 - 20 mA
- IP 54

### Mounting

- Wall / Duct

### Accessoires

- Connection hose + measuring nippels, type **CONNECTIONSET**
- Current transformer 230V / 24V AC, type **Trafo 15/D**

### Technical data

- Power consumption: 5 VA
- Medium temperature: 0 to 70°C
- Accuracy: +/- 1% at 20°C
- Connection hose nippel: 6 mm
