

CO₂ duct transmitter type DOX/E

Duct mounted CO₂ transmitter with a measuring range between 0 - 2000 ppm

Application

- For regulation of ventilation systems on the basis of the CO₂ concentration

Mounting

- Appropriate for duct mounting

Accessoires

- Transfo 230 / 24 V AC, type **TRAFO 15/D**

Technical data

- Supply voltage 24 V AC ±20% or 15...35 V DC
- Measuring range CO₂: 0 - 2000 ppm
- Accuracy CO₂: +/- 50 ppm +2% of measured value
- Measuring principle CO₂: NDIR (Non-Dispersive Infrared Technology)
- Casing IP65 / sensor IP20
- No need for calibration during installation
