

- Hydraulic
- 3-way valve
- On-off
- Fan coils

Motorised 3-way valves type QCV-3

The QCV package sets new standards for solutions and room area. It consists of a ball valve 2 channels (DN 15) and an electromechanical actuator.

Brand

- Belimo

Application

- Fan coils
- Floor heating
- Radiators

Specifications

- No loss of energy due to bubble tight sealing valve according to EN 12266-1
- Manually adjustable kvs value.
- A contamination and "hard seat" resistant rotary valve
- Clip, handy drive
- Extremely compact overall structure
- Easier monitoring and maintenance of communicative MP actuators
- Optional white cover for the drive

Technical data

- Supply voltage: 230V AC or 24V AC/DC
- Running time 90 °: 90 s
- Degree of protection: IP40
- Adjustable kvs
- Available with cable clamps or cable
- System pressure (ps) 1000 kPa
- Medium temperature 6 ° C... 80 ° C
- Available in DN15 and DN20, internal thread version
